New Member Spotlights

The second we met we just knew we would be best friends for life. We never realized how much we needed each other until we became roommates. During rush, we knew we would support each other unconditionally during the process. Not only are we best friends and roommates, we became sisters!!! Joining AEPHI was the best decision of our lives, as we valued all the same things, love, friendship, and truly being able to be yourself in every situation. AEPHI gave us our home away from home and we are forever grateful for OSU for bringing us together and AEPHI.”

“I chose AEPHI because I felt the most connected and welcomed by the girls in the chapter. When walking into the house each round of rush I knew this was home. It was always so comfortable and natural and I always left with a smile on my face!”

“During recruitment I met amazing girls that made me feel so at home. I knew that joining AEPHI would provide me with opportunities to make not only new friends, but lifelong sisters. I am so happy with my decision and truly have AEPHI to thank for all the new experiences and friends I have made.”

Abroad Adventures

As much as I love Columbus, London is truly such a special city and I have been having the most amazing time so far! I feel immensely lucky to be able to be able to share this experience with my best friends and sisters! I have seen so much of the world and grown as a person in just a few short weeks. I truly didn't know how badly I needed this experience and I can't wait for what's in store!

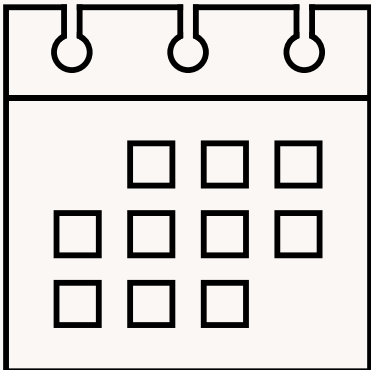

LML, Abby Passarella

For the past two months, I have had the amazing opportunity of studying abroad in Florence, Italy. Being able to explore the city through my walks to class, museum visits and coffee, food, & wine tastings has opened my eyes to the differences in life here and my life at home. On the weekends, I've been able to paraglide in Switzerland, visit family in Prague, and watch Carnivale parades in Venice. I am so grateful for these experiences and I can't wait for what's to come in the next two months.
